

#Newnormal research – Regional benchmarking

February 2023

Current events and their impact on everyday life

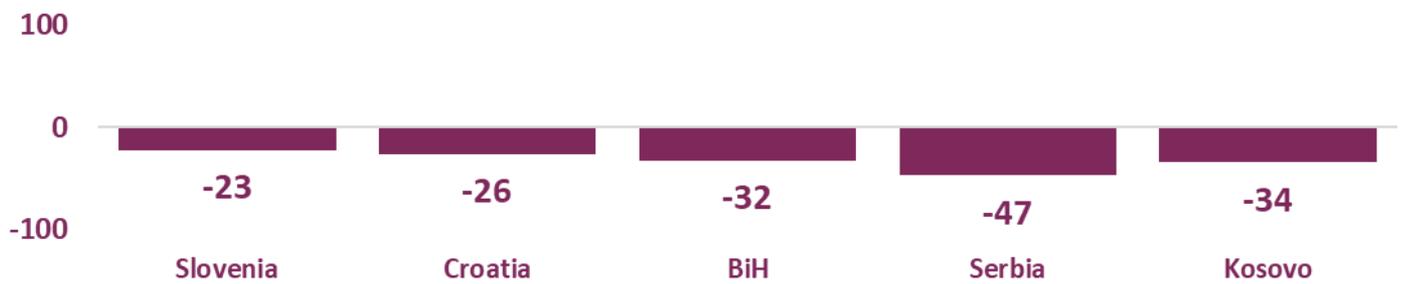

Please select the three current events that have the greatest impact on your life. In the first place, mark the event that has the greatest impact on you.

	SLOVENIA	CROATIA	BIH	SERBIA	KOSOVO
...increase in the cost of living (inflation)	78%	84%	81%	84%	73%
...potential economic crisis	38%	42%	50%	47%	44%
...potential shortage of goods, food, energy	35%	25%	6%	22%	19%
...climate change and extreme weather events	32%	34%	23%	28%	19%
...war in Ukraine and the consequences of that war	26%	29%	27%	27%	26%
...the possibility of a third world war / nuclear war	25%	27%	5%	24%	2%
...current political events in the country	24%	22%	37%	27%	38%
...retain the value of property	24%	19%	0%	3%	0%
...the possibility of war in the region or in Bosnia and Herzegovina	0%	0%	21%	0%	0%
...spread of coronavirus SARS_CoV-2	0%	0%	0%	0%	19%

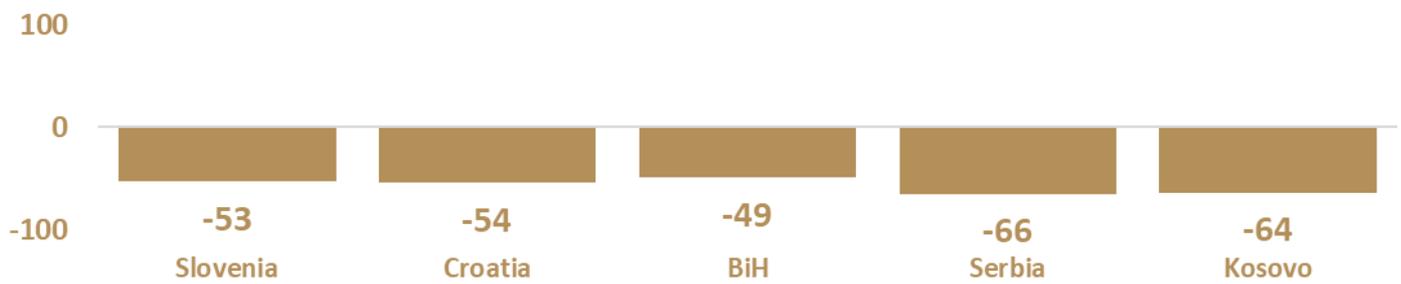

NORMALITY INDEX
(difference between sums of positive and negative responses, 100 = absolute normality)

FINANCIAL STATUS
(difference between expected / current improvement or deterioration, 100 = absolute improvement)

CONSUMPTION LEVEL
(difference between expected / actual increase or decrease in consumption, 100 = absolute increase)

The #Newnormal research monitors the public response to action and life in an epidemic. Date: 17.-20.02.2023.
 Online survey Jazvem/Jaznam web panel, representative sample, 18 - 75 years.
 SLO n=521, CRO n=523, BiH n=519, SER n=525, KOS n=519
 The research is not funded by any company, individual or organization and is publicly available.

INDEX OF CONFIDENCE IN THE WORK OF THE GOVERNMENT

(difference between "very much
/ more trusting and
more not / not at all trusting",
100 = absolute trust)

Whether you support the current government or not, to what extent do you trust this government in making decisions, responding to crisis situations and running the country in general?

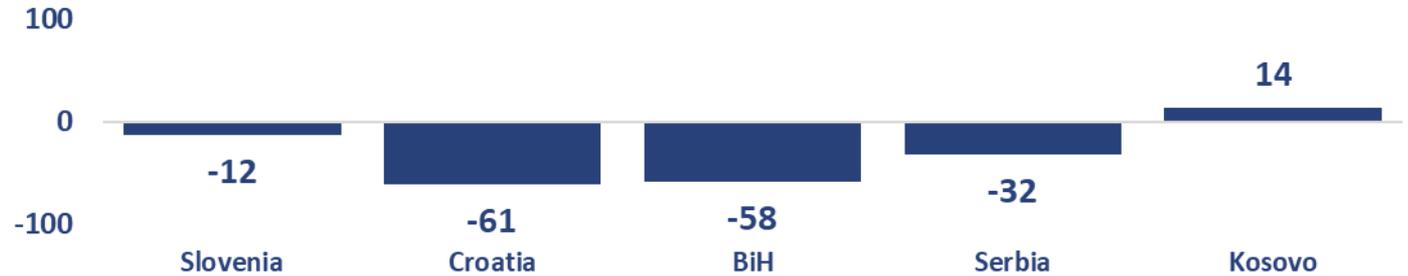

completely don't trust

mostly don't trust

mostly trust

completely trust

INDEX = the difference between the sum of the proportions mostly trust and completely trust, and the sum of the proportions completely don't trust and mostly don't trust

VALICON
